

1973 Article Index

Management

- Why We Must Win the Productivity Race, Jan. p.20
 Computer System Solves Multi-Plant Control Problems, R.L. Carlstein and I. Brady, Feb. p.20
 Minicomputer Upgrades Production Decision Making, Mar. p.18
 TST—An Explosive Formula For Managerial Productivity-Part 1, G.A. Whittington, Apr. p.20
 TST—An Explosive Formula For Managerial Productivity-Part 2, G.A. Whittington, May p.20
 The TEAM Program at Lockheed, Dr. H.E. Cahill, June p.26
 The Blue Collar Blues—Today's Academic Hit Tune, A.A. Imberman, July p.26
 Computer System Cuts Batch Processing Costs, Aug. p.18
 What's Bugging American Workers... And How Much Does Management Care? G.A. Whittington, Sept. p.24
 Any Manager Can Apply the Learning Curve Concept, Dr. M. Lehman, Oct. p.20
 Then Came CAM... Computer Aided Manufacturing Solves Complex Control Problem, T. Archbold and D. Rorke, Nov. p.24
 Employee Involvement Program Cuts Product Damage and Waste, J.L. Seminara, Dec. p.18

Ideas and Developments

- Engineers Broaden Dialog With National Legislators, Apr. p.26
 Handling Order Entries Better at Lower Costs, May p.24
 Another Liability Hurdle For Manufacturing Management, June p.31
 Boeing Launches Jetfoil Production, July p.30

Design/Fastening/Joining

- Controlling Fastening Reliability and Costs, Jan. p.26
 Fastener Coatings Inhibit Structural Aluminum Corrosion, J.S. Sekhon and P.W. Cook, Feb. p.24
 Assuring Reliability in Socket Head Cap Screw Joints, J.F. Schmidt, Mar. p.22
 Quiet Please Riveting Zone, Apr. p.30
 What's Caustic Embrittlement? J. Vasar, May p.26
 Thermoplastic Film Adhesives Invade Product Assembly, June p.34
 When, Why and How to Specify Mechanical Face Seals, J.C. Dahlheimer, July p.32
 Assembly Value in Hidden Plastics is No Secret, Aug. p.22

- Joining Plastics with Adhesives, C.V. Cagle, Sept. p.28
 The Optimum Metric Fastener System, Oct. p.24
 Molding Assembly Cost Savings Into Plastic Parts, Nov. p.32
 You've Come a Long Way, E-B You've Made It on the Assembly Line, Dec. p.24

Ideas and Developments

- Blind Rivets Speed up Caster Assembly and Produce Permanent Connections, Jul. p.39
 Impact Extrusion + Cold Heading = 80% Material Savings, July p.40
 Staples with Style, Sept. p.31
 Reflections, Technicalities and Smith-Kabobs, C. Smith, Oct. p.30
 Automatic Welding Improves Both Quality and Productivity, Nov. p.37

Electrical/Electronic Assembly

- The Payoff in Modules: Improved Productivity, Quality, Serviceability, E. Reynolds, Jan. p.36
 How to Save \$2,000,000, N. Wood, Feb. p.30
 In Chrysler Cars... Discrete Circuit Controls Ignition, Mar. p.28
 Victor Comptometer Completes Conversion to Electronic Logic, G.H. Knox, Apr. p.36
 Volume Approach Cuts Short Run Assembly Costs, J.E. VanOsdol, May p.30
 A Clean Tip, Well Tinned, Solders Best, R.M. Mehl, June p.38
 Component Outlines on Circuit Cards Cut Insertion Costs, G.O. Dillan and A. Seaman, July p.42
 For Maximum Savings... Design PC Boards for Mechanical Insertion-Part 1, J.T. Phillips, Aug. p.26
 For Maximum Savings... Design PC Boards for Mechanical Insertion-Part 2, J.T. Phillips, Sept. p.34
 Can the U.S. Afford the "Cosmetic Look" in Soldered Joints?-Part 1, J.D. Keller, Oct. p.32
 Can the U.S. Afford the "Cosmetic Look" in Soldered Joints?-Part 2, J.D. Keller, Nov. p.38
 Hi-Density IC's Packaged in Thin Copper Wafers, W.P. Holcomb, Dec. p.30

Ideas and Developments

- Prepping Machines Reduce Cable Costs, July p.46
 Video Recorder with Strobe Probes Assembly Hangups, Oct. p.36

- Crimp Strip Connects Lead Wires to Heater, Dec. p.32

Assembly Systems

- Automatic Assembly the State-of-the-Art in Productivity, Jan. p.46
 Correct Alignment Minimizes Cylinder Operating Problems, B. Rich, Feb. p.34
 First U.S. Production RC Engines for Snowmobiles, W. Semmerling, Mar. p.34
 First U.S. Production RC Engines for Snowmobiles, W. Semmerling, Mar. p.34
 What to do When OSHA Threatens Your Riveting Productivity, M. Kilgore, Apr. p.40
 Design Parts for Automatic Assembly, F.J. Riley, May p.40
 Pneumatic Logic... A Tool For Precision Assembly-Part 1, W. Semmerling, June p.42
 Pneumatic Logic... A Tool For Precision Assembly-Part 2, W. Semmerling, July p.48
 Programmable Controllers—What They Are & What They Can Do For You-Part 1, D.T. Symmes, Aug. p.32
 Programmable Controllers—What They Are & What They Can Do For You-Part 2, D.T. Symmes, Sept. p.40
 Video Work Measurement—A Smart New IE Tool, R.R. Kegerreis, Oct. p.42
 Some Missing Links in Improving Assembly Productivity, T.O. Prenting, Nov. p.42
 Pre-engineered Circuit Cards Control Automatic Assembly, Dec. p.34

Ideas and Developments

- Standard Modules Simplify Building of Custom Assembly Machines, Jan. p.50
 Bright Impact Strip Bonded to Car Body, Feb. p.36
 Maintaining Assembly Clean Room Standards, Feb. p.38
 Removing Frozen Races, D. Pheil, Feb. p.38
 Precision Assembly by Die Casting, Feb. p.40
 Retrieving Coil Springs, Feb. p.41
 Guidance/Test System Cuts Errors 99 Percent, Mar. p.38
 One Operation Replaces Four on Electronic Assemblies, Mar. p.42
 Captive Fasteners Solve Problem And Reduce Costs, Apr. p.45
 Parts Bin System Reduces Burden Costs, May p.44
 Neoprene Bushings Hold Snowmobile Windshields Tight, Sept. p.49
 Coating Improves Corrosion Protection to Machined Parts, Oct. p.45
 Ultrasonics Debonds Adhesive Joints, Dec. p.37
